

[Fiber Optic Network](#)

High-Speed Broadband Access for All

The U.S. Virgin Islands is home to one of the fastest broadband connections in the Western Hemisphere.

Thanks to the Virgin Islands Next Generation Network (viNGN), a public corporation, all residents, businesses and government agencies in the USVI enjoy access to affordable, sophisticated and reliable high-speed fiber optic network internet connections.

Supported by federal grants through the American Recovery and Reinvestment Act, viNGN works with local businesses to install the state-of-the-art infrastructure.
